

What Does “Fully Insured” Mean...?

You should ask a roofing contractor for a copy of their insurance policy before any work begins.

There is a difference between **General Liability Insurance** and **Roofers Liability Insurance**.

If more than one person is working on your property, the contractor is required to have Workers Compensation Insurance.

You will have peace of mind if you ask these questions and require the correct insurance... the difference is a **potential lawsuit!**

Don't take a chance on your **family and home**.

We invite you to call our Insurance Account Executive to find out why you'd want a contractor who's **fully insured**.

Carol E. Kelley, CIC 15 E Starrett Drive
